CITY AND COUNTY OFFICIAL PAPER

FREE COINAGE 16 to 1

For President and Silver:  
W. J. BRYAN, of Nebraska.  
For Vice-President:  
ARTHUR SEWALL, Maine.

We demand the immediate restoration  
of the free and unlimited coinage of gold  
and silver at the present legal ratio of 16 to 1,  
without waiting for the aid or consent  
of any other nation. We demand that the  
standard silver dollar shall be a full legal  
tender, equally with gold, for all debts,  
public and private and favor such legisla-  
tion as will prevent the demonetization  
of any kind of legal tender money by  
private contract.—Democratic National Silver  
Platform.

The gold press says it is time to call  
a halt. Well, go right ahead and call  
it, and see what the result will be.

Senator John B. Gordon of Georgia,  
whose name has been mentioned for the  
vice presidency, on a gold Demo-  
cratic ticket, has declared that he will  
support Bryan. The band wagon is  
rapidly filling up.

Since the Democrats, Populists and  
free silver Republicans in Kansas have  
agreed upon a ticket, it really makes  
little difference whether the Republi-  
cans still left in the state nominate  
Governor Morrill or some other man.  
They are hopelessly in the minority.

If anything further was necessary to  
convince our people of the attitude of  
the money power of England toward  
this country, it is furnished in the fol-  
lowing from the London Times of  
June 19th. Commenting on the nomi-  
nation of Mr. McKinley and the plat-  
form adopted by the St. Louis conven-  
tion, the Times says: "It is needless  
to inquire into the influences which  
have determined the adoption of such  
an overwhelming majority at the St.  
Louis convention to the monetary  
standard 'of the most enlightened na-  
tions of the earth.' With the large  
pecuniary and commercial interests  
which British capital and British  
trade possesses in the United States,  
we have only to congratulate ourselves  
upon the result so far as it goes." Yes,  
it is "needless" to inquire into the in-  
fluences which brought about the result  
of the St. Louis convention. The peo-  
ple of this country are well satisfied as  
to what the "influence" was and also  
from whence it came, and from pre-  
sent indications, when the sun sets on  
the 31 day of November, silver's  
champion will have "bruised the ser-  
pents head."

The hand of fate hovers over the entire  
world who in error have dashed the cup of life  
to the floor. It is a fearful hour to be as-  
strong as an ox to-day, to be weak as a kitten  
tomorrow. It is a solemn warning; it should  
be heeded. Catch yourself in the track of time  
if you can! Help yourself!

For your Protection.—Catarrh "Cures" or  
Tonics for Catarrh in liquid form to be taken  
internally, usually contain either Mercury or  
Iodine of Potassium, or both, which are inju-  
rious if too long taken. Catarrh is a local, not  
a blood disease, caused by sudden change to  
cold or damp weather. It starts in the nasal  
passages, affecting eyes, ears and throat.  
Cold in the head causes excessive flow of  
mucus, and, if repeatedly neglected, the re-  
sult is catarrh will follow; severe pain in  
the head, a roaring sound in the ears, bad  
breath, and sometimes an offensive dis-  
charge. The remedy should be quick to allay  
inflammation and heal the membrane. Ely's  
Cream Balm is the acknowledged cure for  
these troubles and contains no mercury  
nor any injurious drug. Price, 50 cents.

## The National Matte Smelter.

A practical and simple method of smelting  
sulphide ores, such as nickel, copper, gold and  
silver ores. In localities where lead ores and  
fuels are scarce and almost unobtainable, our  
pyritic, water jacket Matte Smelter has been re-  
cognized with highly satisfactory results, and  
has been thoroughly tested on various pyritic,  
sulphide and arsenide ores, in capacity of 2 to  
80 tons per day. It is the most practical,  
cheapest and simplest method of gold and silver  
ore smelting and concentrating that is known  
today.

It requires no extraordinary skill, no lead ores,  
no fluxing material, and no fuel of any kind for  
the smelter after it is started. The sulphur in  
the ore is its natural fuel, and its cost has  
no comparison with any other process of con-  
centrating.

We are prepared to furnish any size or capacity  
plant complete to substantial mining people,  
set it up and furnish our men to run it for them  
on easy payments. Price and specifications  
furnished with references and testimonials on  
application.
